@COMPANY/MOTOR-EV

We're Motor. We work with individuals, businesses, and utilities to accelerate the adoption of electric cars and the future of mobility. The simplest way to get an electric car, Motor affords drivers access to all of the benefits of driving electric with none of the hassle. Current Motor offerings include an electric car subscription service, workplace car-sharing, an electric car buying solution, and simplified charging options.

### PARTNERSHIPS

Opening the door to new opportunities alongside utilities, Motor partnered with AES Indiana to accelerate the future of mobility with driver incentives and AES Indiana customer benefits, including a proposed one-time charger rebate to encourage broader electric car adoption.

## Why Drive Electric

### // Sustainability

Driving electric means lower emissions, which means cleaner air for all.

### // Performance

Next generation features of today's electric cars make for a smooth yet fun ride.

### // Savings

Electric means lower operating costs, less repairs, and no more expensive gas station visits.

### // Convenience

Online ordering, home delivery, low-maintenance cars, and at-home charging help to simplify the process.

### // Benefits

Eligible for tax credits, as well as special rates and rebates from utilities.

# Our Services

## Motor Drive //

SUBSCRIBE

An all-inclusive, low commitment monthly electric car subscription service designed to save individuals time, money, and the headaches of traditional car ownership.

**1** Choose your car in the app.
